Objectives

- Know the critical importance of having a district Competency Based Education vision
- Begin to develop a personal WHY around proficiency based learning, focusing on how it promotes equitable practices
- Understand the CPS CBE Framework and how it can deepen and/or expand CBE Implementation
- Identify a domain of the CPS CBE Framework to focus on as you begin your proficiency based learning journey
Agenda

Welcoming Ritual

CPS Competency Based Education Vision

How is proficiency based learning an equitable approach?: **WHY?**

Exploring the CPS CBE Framework & CBE implementation in CPS: **WHAT?**

CBE Self-Assessment: **HOW?**

Connecting & Wrap Up
Section 1
Welcoming Ritual
C.B.E. Community Builder

Find a partner & introduce yourself.

- Each person should choose 1 prompt to share with their partner:
  - C- What is something you care about deeply?
  - B- What brought you to this session?
  - E- What excites you about this work?
Section 2
CPS’s Competency Based Education District Vision
CPS CBE Vision

Awareness to Action: Promoting Equity in Education and Careers

Short Term
2-3 years

Certification of CBE Model Schools

Long Term
3-5 years

K-12 CBE Pathways
CPS CBE High Schools in the ISBE CBE Pilot

1. Benito Juarez HS
2. Gwendolyn Brooks College Prep
3. Lindblom Math & Science Academy
4. Marie S. Curie HS
5. Roberto Clemente HS
6. Phoenix STEM Military Academy
7. Southside Occupational High School
8. Walt Disney II HS
9. Walter Payton College Prep
10. York HS
## 5 Year CPS CBE Vision

<table>
<thead>
<tr>
<th>If we...</th>
<th>Develop common language and expectations around what it means to be a CBE school AND use that common language to deepen and sustain implementation at our pilot schools</th>
</tr>
</thead>
<tbody>
<tr>
<td>Then we...</td>
<td>Can identify, codify, and replicate the success of CPS CBE Pilot schools in additional communities throughout Chicago</td>
</tr>
<tr>
<td>Which leads to...</td>
<td>ALL students in CPS having equitable access to learning environments that allow them to build agency as they progress at their own pace with multiple opportunities to demonstrate proficiency both in and out of the classroom.</td>
</tr>
</tbody>
</table>
Connection to CPS 3-Year Blueprint

Recommitments

Reimaging

Design responsive programming and school models specifically for students who are furthest from educational opportunities.

Ensure grading policies, procedures, and practices are consistent, equitable, and transparent.

Elevate Out-of-School Time and summer programming as a critical extension of the school day and year, offering all students responsive and engaging experiences.
Short Term: Why Certification?

We have many programs in Chicago Public Schools, including (but not limited to)...

- International Baccalaureate (IB)
- Montessori
- Competency Based Education
- Fine Arts
- STEM/STEAM
- Personalized Learning (PL)
- Gifted
- Magnet
Certification Will:

| Provides a pathway for schools to publicly demonstrate their excellence, which drives pride, enrollment, attendance, and community engagement |
| Offer regular opportunities for schools to receive formative assessment and feedback from T&L teams through the collection of artifacts and evidence |
| Supply Teaching & Learning teams with data that will allow us to differentiate and deepen our supports throughout the program focus life cycle |
| Establish common indicators of program impact that can be confidently shared with stakeholders |
| Develop a pipeline of exemplar schools that can serve as demonstration sites and mentors for aspiring schools |
Who Benefits?

Students, who will engage in programming that is adhering to standards for success and who are now poised to leverage their interests and strengths to meet their goals.

Awareness to Action: Promoting Equity in Education and Careers
# 5 Year CPS CBE Vision

**If we...**

- Develop common language and expectations around what it means to be a CBE school AND use that common language to deepen and sustain implementation at our pilot schools

**Then we...**

- Can identify, codify, and replicate the success of CPS CBE Pilot schools in additional communities throughout Chicago

**Which leads to...**

- ALL students in CPS having equitable access to learning environments that allow them to build agency as they progress at their own pace with multiple opportunities to demonstrate proficiency both in and out of the classroom.

**2-3 Years**

Certify Model Schools & Identify Best Practice to spread across CPS
Section 2
How is Proficiency Based Learning an Equitable Approach?
the WHY behind proficiency based learning
Building on our WHY

As we uncover more information to build our WHY, make note of your key takeaway(s) from each resource.

Chapter 2

Research & Facts

What is Standards Based Grading Video

Proficiency Based Learning Padlet Exploration
Activity #1: A Brief History of Grading

- **Sustained Silent Reading**
  - Read the hard copy or digital copy
  - Highlight/take notes on key points
  - Look up when you’re done

- **Whole Group Discussion**
  - Which key points stood out to you?
  - How do schools today compare to schools of the early 20th century as it relates to instruction and grading?
Bringing Together History and Research I

The History:
In the Industrial Revolution, increased numbers of students in schools and the availability of urban factory jobs meant we needed to sort people for positions to be more profitable.

The Research:
Grades are often used to sort or rank students, including norm-referenced grading.

Grades value actions like compliance and following instructions.
The History:
We used tests and scores to track students and provide “evidence” that our social hierarchy was “correct.”

The Research:
Traditional grading practices allow for both implicit (participation, citizenship) and institutional biases (homework).
The History:

We use grades as decision-makers for school admittance, colleges, scholarships, honors, etc.

The Research:

Grades are a “hodgepodge” of factors that are subjective.

Grades have only a moderate correlation with student achievement.
What is Standards Based Grading?

As you watch, take note of:

- How they define standards based grading,
- Its purpose **and**
- How it differs from traditional grading practices.

Awareness to Action: Promoting Equity in Education and Careers
Standards Based Grading Chat

Awareness to Action: Promoting Equity in Education and Careers
Proficiency Based Exploration

- **Independent Exploration:**
  - Proficiency Based Learning
    - Research Padlet
  - Choose 1 resource featured on the Padlet to review
  - Be prepared to share out your takeaways
Section 3
A Framework for Competency Based Education

WHAT is proficiency based learning?
Competency Based Education fosters the development of **agency**, **collaboration**, **adaptability**, and **leadership** by creating learning environments that empower students to **co-design** their learning **path and pace** based on their **demonstration of proficiency**, while nurturing their **interests** and **talents**.
CPS CBE Framework

- Contains a Continuum that can be used as an implementation instrument
- Answers: “What does CBE look like?”
- Provides CBE guidance to teachers and schools, along with a common language to use throughout the district
Awareness to Action: Promoting Equity in Education and Careers

CPS CBE Framework Timeline

Early Adopters

Schools throughout CPS work towards mastery based implementation in a variety of ways

Prior to 2016

- Postsecondary & Workforce Readiness Act Passed
- Creates Illinois’ CBE Pilot Program

2016

- CPS CBE Steering Committee Launches
- Recommends alignment of district definition of adaptive competencies to ISBE SEL Standards

2018

- 1st Draft 7 Domains of CBE
- 1st Draft of the Adaptive Pacing Tool, including the 7 Domains of CBE was released in partnership with Great Schools Partnership

2019

- 1st Draft Key Adaptive Competencies Framework
- 4 Key Adaptive Competencies: Agency, Adaptability & Flexibility, Collaboration, Leadership

2020

- CPS Schools Submit ISBE 2.0 Renewal Applications reaffirming their commitment to CBE

2022

- 2nd Draft of CBE Framework
- Using feedback from all of you!

2023

- 1st Draft of CPS CBE Framework is created in consultation with external CBE Experts & other frameworks

2024

- 2nd Draft of CBE Framework
Chicago Public Schools

Competency Based Education Framework

CPS CBE Framework

CPS CBE Continuum

Awareness to Action: Promoting Equity in Education and Careers
Each domain is broken down into COMPONENTS that describe the practices of the domain.

CONTINUUMS demonstrate what indicators look like in beginning and advanced stages of implementation. They are used as a tool not only to measure implementation but also advance educator practice.

The four DOMAINS encompass the big ideas of CBE.

Within each component there are INDICATORS that describe what we would expect a learner, educator, and/or school community to be doing if this component were being exhibited.

Awareness to Action: Promoting Equity in Education and Careers
CPS CBE Framework Domains

Integrated Learning Targets & Instructional Practices

Proficiency Based Progression

Equitable Assessment & Demonstration of Proficiency

Engaging Students through Adaptive Competencies

Awareness to Action: Promoting Equity in Education and Careers
Awareness to Action: Promoting Equity in Education and Careers

Competency architecture is clearly defined (daily learning objectives, performance indicators, and long-term learning objectives). The connection between each layer of the competency architecture (daily learning objectives, performance indicators, and long-term learning objectives) is clearly specified and provides an easy-to-understand pathway that illustrates what the learner must know and be able to do in order to progress in and become proficient on a learning target.

Scoring criteria is developed for every long-term learning objective and short-term learning target within the competency architecture.

Learning objectives are relevant, current, and accurately depict the skills & dispositions needed for post-secondary life.

Across disciplines, instructional activities support learner understanding of learning objectives and how they can make progress towards demonstrating proficiency.

Learners engage in learning experiences that allow them to make explicit connections across learning objectives both within and across disciplines.

Learners engage in a variety of learning experiences based on their strengths, needs, and interests for the development of proficiency on both academic and adaptive competencies.

Learners engage with culturally relevant content and materials.

Learners have opportunities to create and implement solutions to issues impacting their communities.

Partnerships are cultivated to provide real-life learning, training, assessment, internship, and employment opportunities both within and external of the school day.

External partners are chosen based on their alignment to school-wide competencies and/or graduation requirements.

Learners have the opportunity to demonstrate proficiency of learning objectives towards gained through experiences with external partners - both in and out of school time.

Indicators for Integrated Learning Targets & Instructional Practices

- Clear, Measurable Learning Targets
- Transparency of Student Learning
- Interdisciplinary & Multi-Modal Instructional Strategies
- Integrated Partnerships

Indicators

- Competency architecture is clearly defined (daily learning objectives, performance indicators, and long-term learning objectives).
- The connection between each layer of the competency architecture (daily learning objectives, performance indicators, and long-term learning objectives) is clearly specified and provides an easy-to-understand pathway that illustrates what the learner must know and be able to do in order to progress in and become proficient on a learning target.
- Scoring criteria is developed for every long-term learning objective and short-term learning target within the competency architecture.
- Learning objectives are relevant, current, and accurately depict the skills & dispositions needed for post-secondary life.
- Across disciplines, instructional activities support learner understanding of learning objectives and how they can make progress towards demonstrating proficiency.
- Learners engage in learning experiences that allow them to make explicit connections across learning objectives both within and across disciplines.
- Learners engage with culturally relevant content and materials.
- Learners have opportunities to create and implement solutions to issues impacting their communities.
- Partnerships are cultivated to provide real-life learning, training, assessment, internship, and employment opportunities both within and external of the school day.
- External partners are chosen based on their alignment to school-wide competencies and/or graduation requirements.
- Learners have the opportunity to demonstrate proficiency of learning objectives towards gained through experiences with external partners - both in and out of school time.

Domain

- Components
- Indicators
The Framework in Practice: A Case Study
Brooks College Prep High School

Awareness to Action: Promoting Equity in Education and Careers
CBE Case Study: Brooks College Prep

As you watch:

- Consider: What systems and structures must be in place “behind the scenes” for Brooks to operate this way?
- What CBE practices or structures are mentioned that advance equity at Brooks?
- Where do you see connections to the CPS CBE Framework?
CBE Case Study: Artifact Review

- Form a small group or find a partner
- Each of you select an artifact to review
- Review your artifacts, jotting answers to the questions in the note catcher provided
- Share with your group a summary of your artifact and its alignment to the CPS CBE Framework

**Where do you see alignment to the CPS CBE Framework?**

**What component from the CPS CBE Framework does the artifact best align to?**

**Using the CPS CBE Continuum, what stage do you think Brooks is at in that component based on your artifact review? Why?**

Case Study Artifact Review
Section 4
Competency Based Education
Self-Assessment

HOW to get started with proficiency based learning
What Practices are Already in Place?

With a partner:

First
Identify something you’ve heard about Proficiency Based Learning
OR
Something related to proficiency based learning that your school is implementing

Then
Align that practice to the framework:
What domain does it fall under?
What component?
CPS CBE Framework Self-Assessment

1. **Find** a copy of the [CPS CBE Framework Self-Assessment](#) at your table or open a copy digitally
2. **Review** the implementation level descriptors
3. **Rate** each of the statements based on your current practices
4. **Add** ratings for each of the colors and record your totals at the bottom of page 2
CPS CBE Framework
Self-Assessment Results
Take a moment to consider your totals & look at each domain of the framework:

Which domain do you need to grow the most in?
Why do you think that is?

Which domain is most of interest to you OR would have the largest impact on your students? Why?
Section 6
Connecting with Us
How Do We Support This Work in the District?

Professional Learning
- Introduction to a Proficiency Based Learning Series
- Deepening Workshops
- School Visits

Pilot School Guidance & Collaboration
- CBE Collaborative Meetings
- Observations & Learning Walks
- Thought Partnership
- Funding
- Advocation for Policy

Data & Tools
- Implementation Tracker
- Key Adaptive Competency Toolkit
- Key Adaptive Competency Survey - both students & teachers

Awareness to Action: Promoting Equity in Education and Careers
## CPS CBE Collaborative Meetings
